

ZIEGLER LIGHTHOUSE

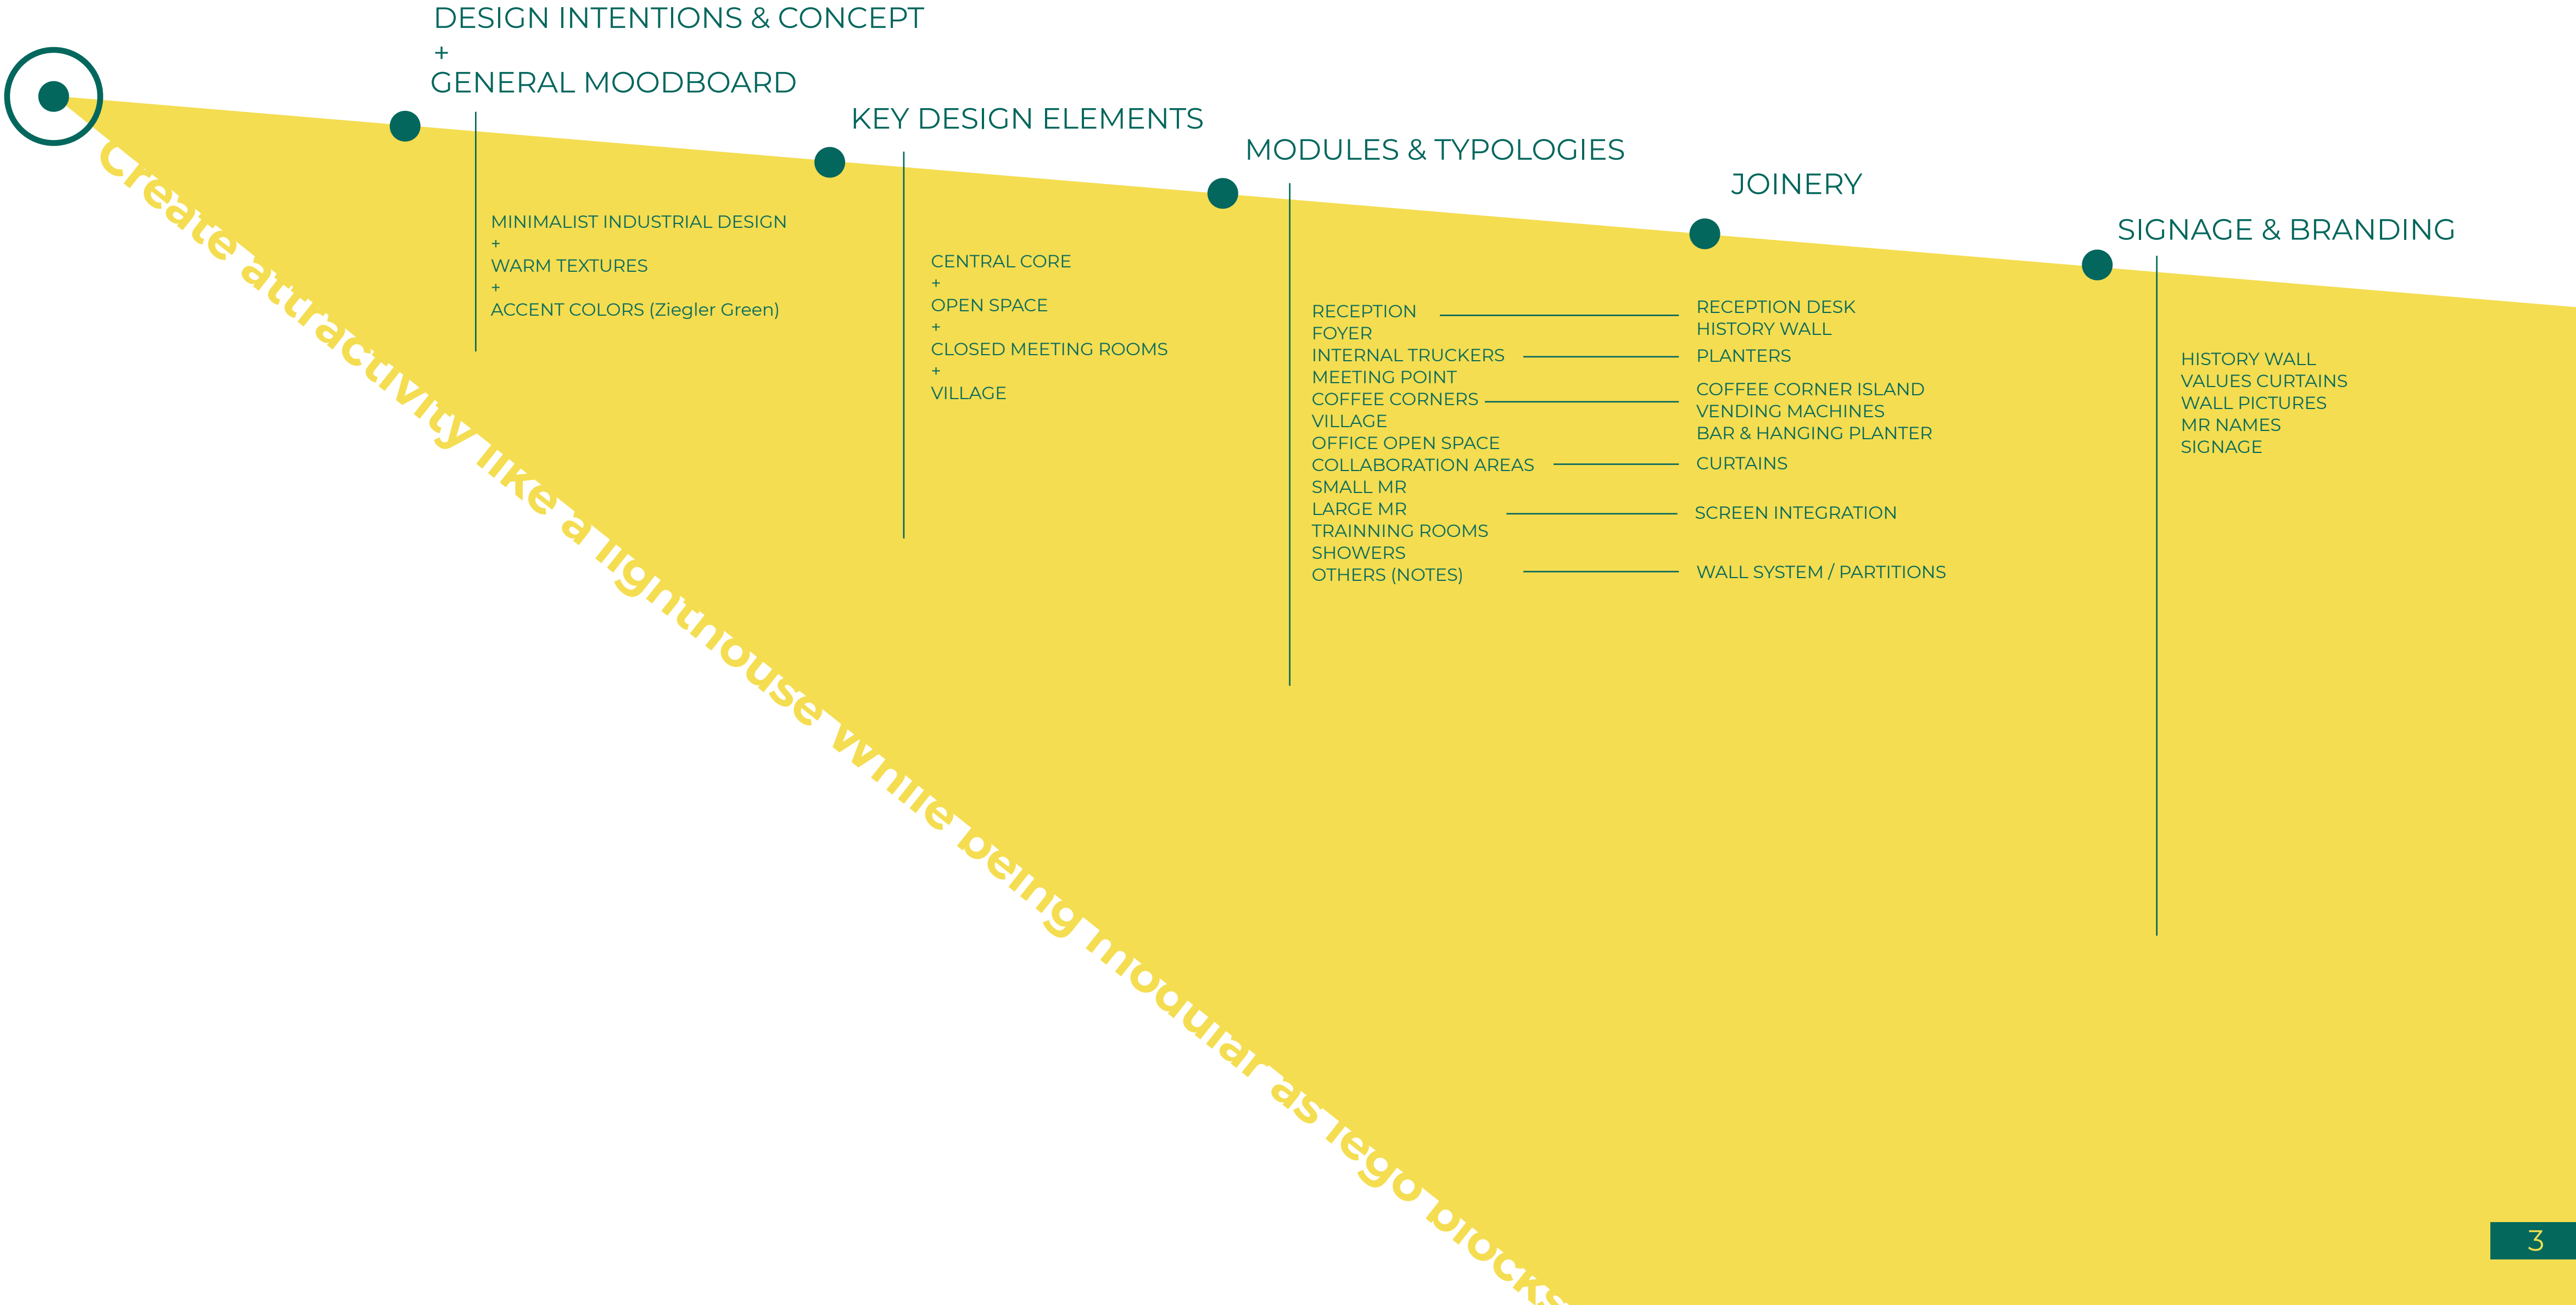

LOOKBOOK

19.11.24

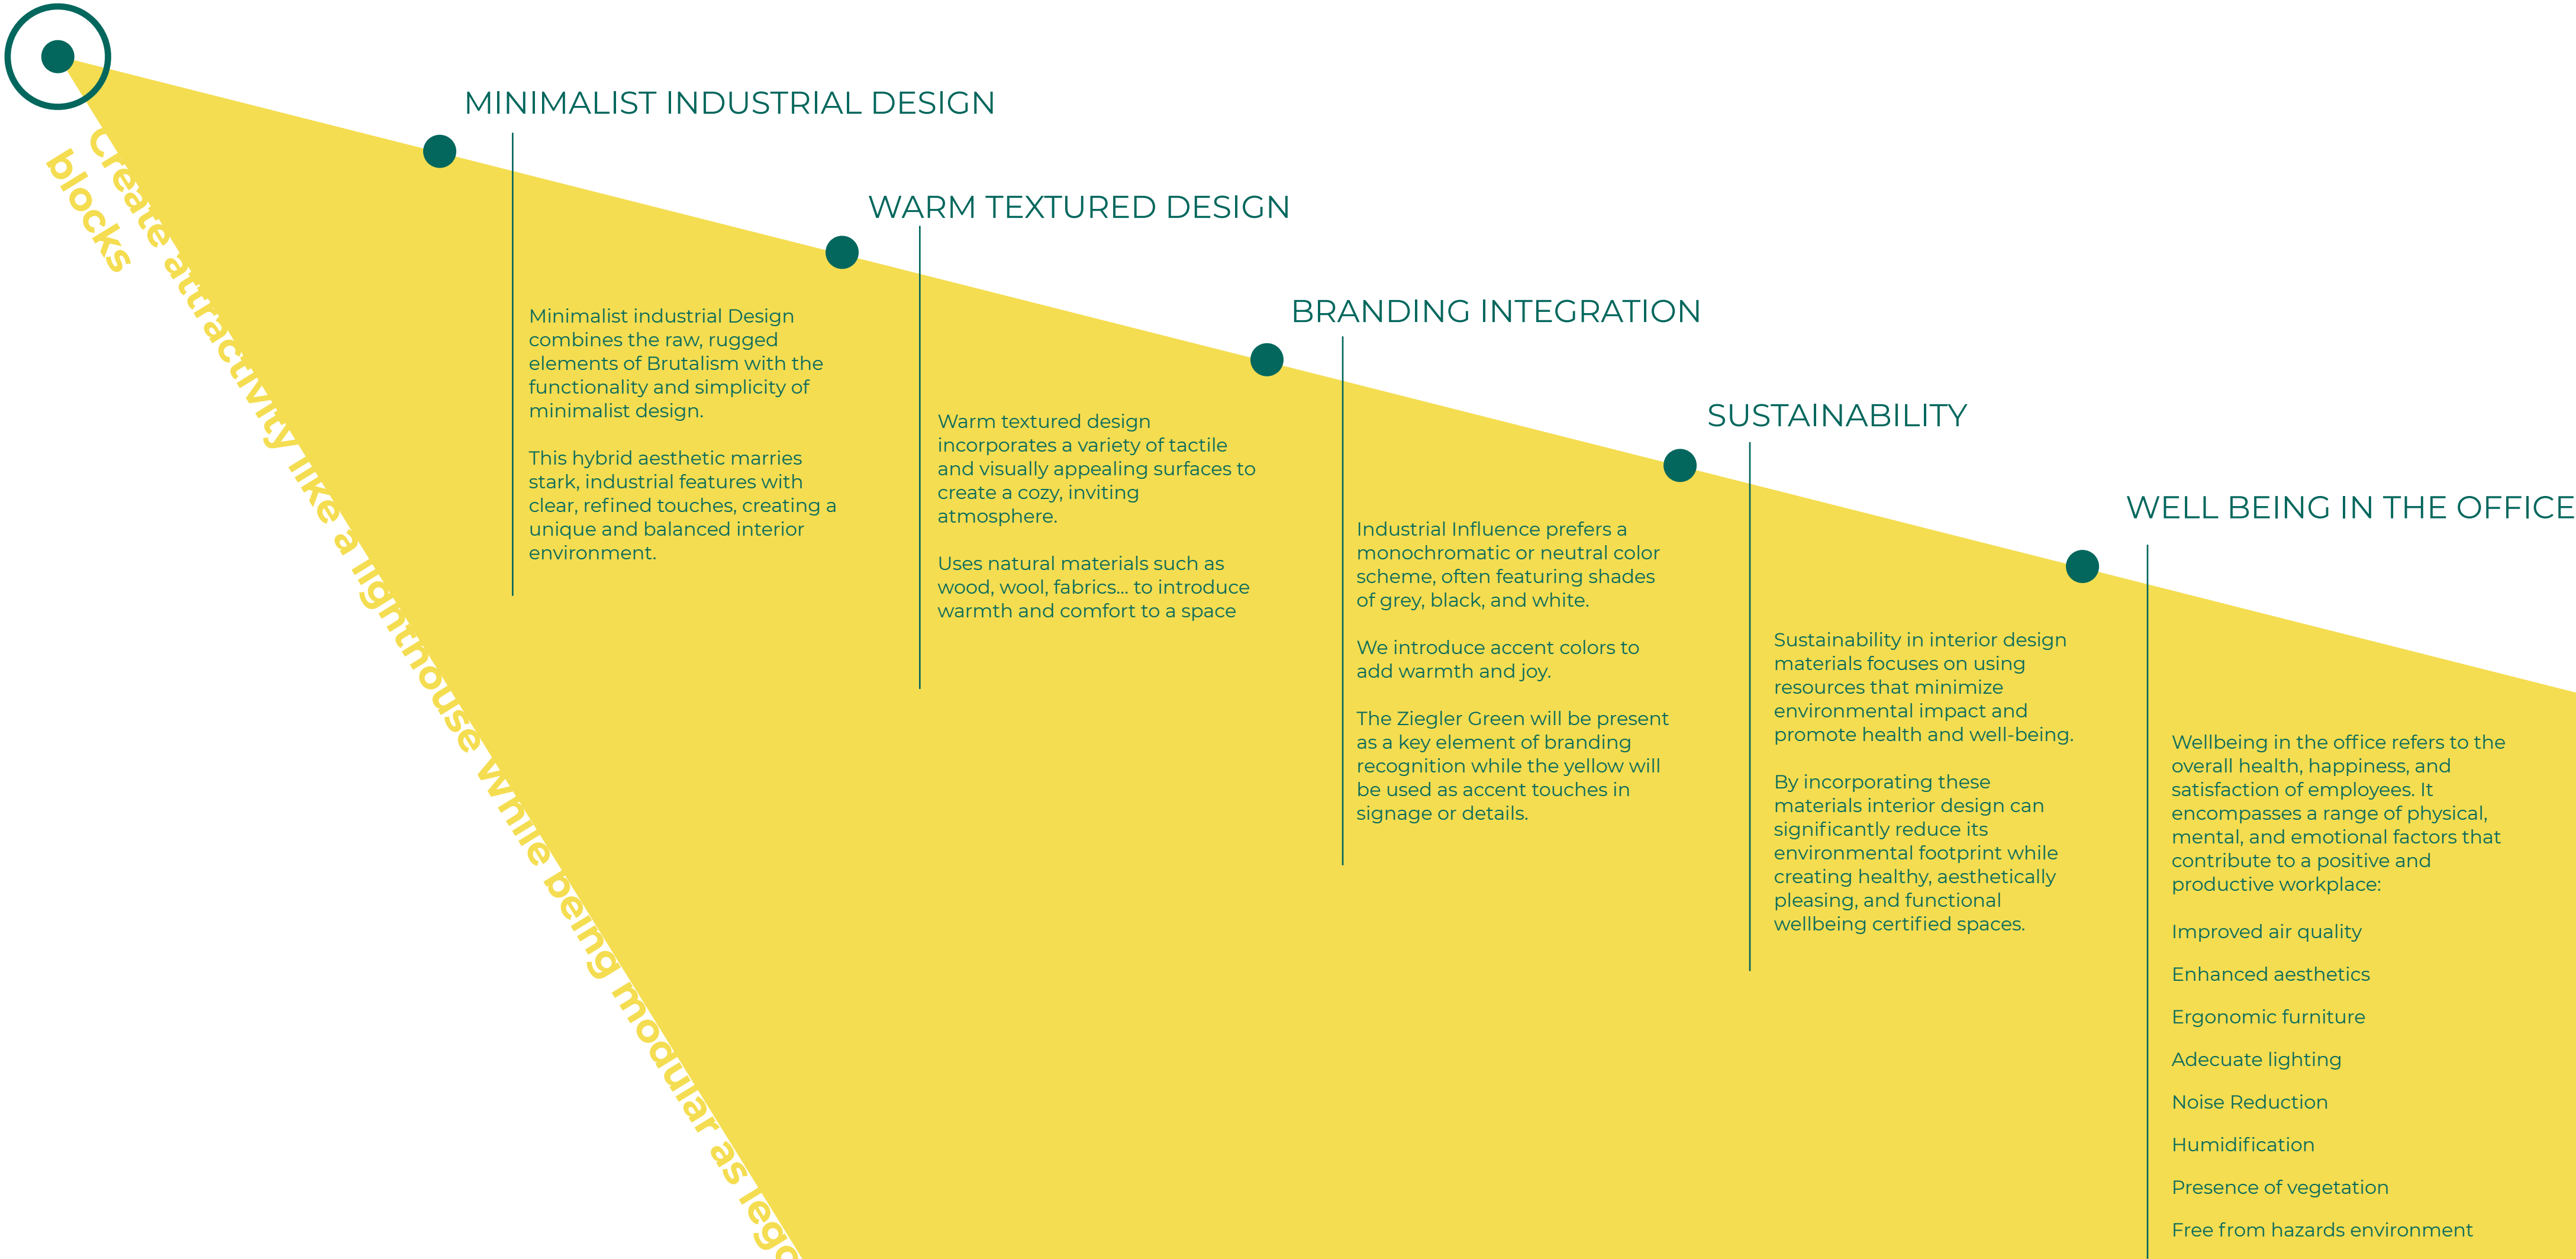

ZIEGLER LIGHTHOUSE

LEGEND

ZIEGLER LIGHTHOUSE

DESIGN INTENTION

SCOPE

Creating a lookbook for all ZIEGLER future offices to create a guideline for the design of all aspects in the offices.

This will lead to;

- Coherence
- A clear **identity** linked to ZIEGLER
- Durability for future use and design
- A client and visitor **experience** to create connection to the office

Create activity like a lighthouse

While being modular as lego blocks

CONCEPT

ZIEGLER LIGHTHOUSE

What makes the office
RECOGNIZABLE
And gives to all offices worldwide
IDENTITY

&

MODULARITY AS A LEGO BLOCK

The characteristics of each space will determine
TPOLOGIES
These will be
SCALABLE & VARIOUS

CONCEPT

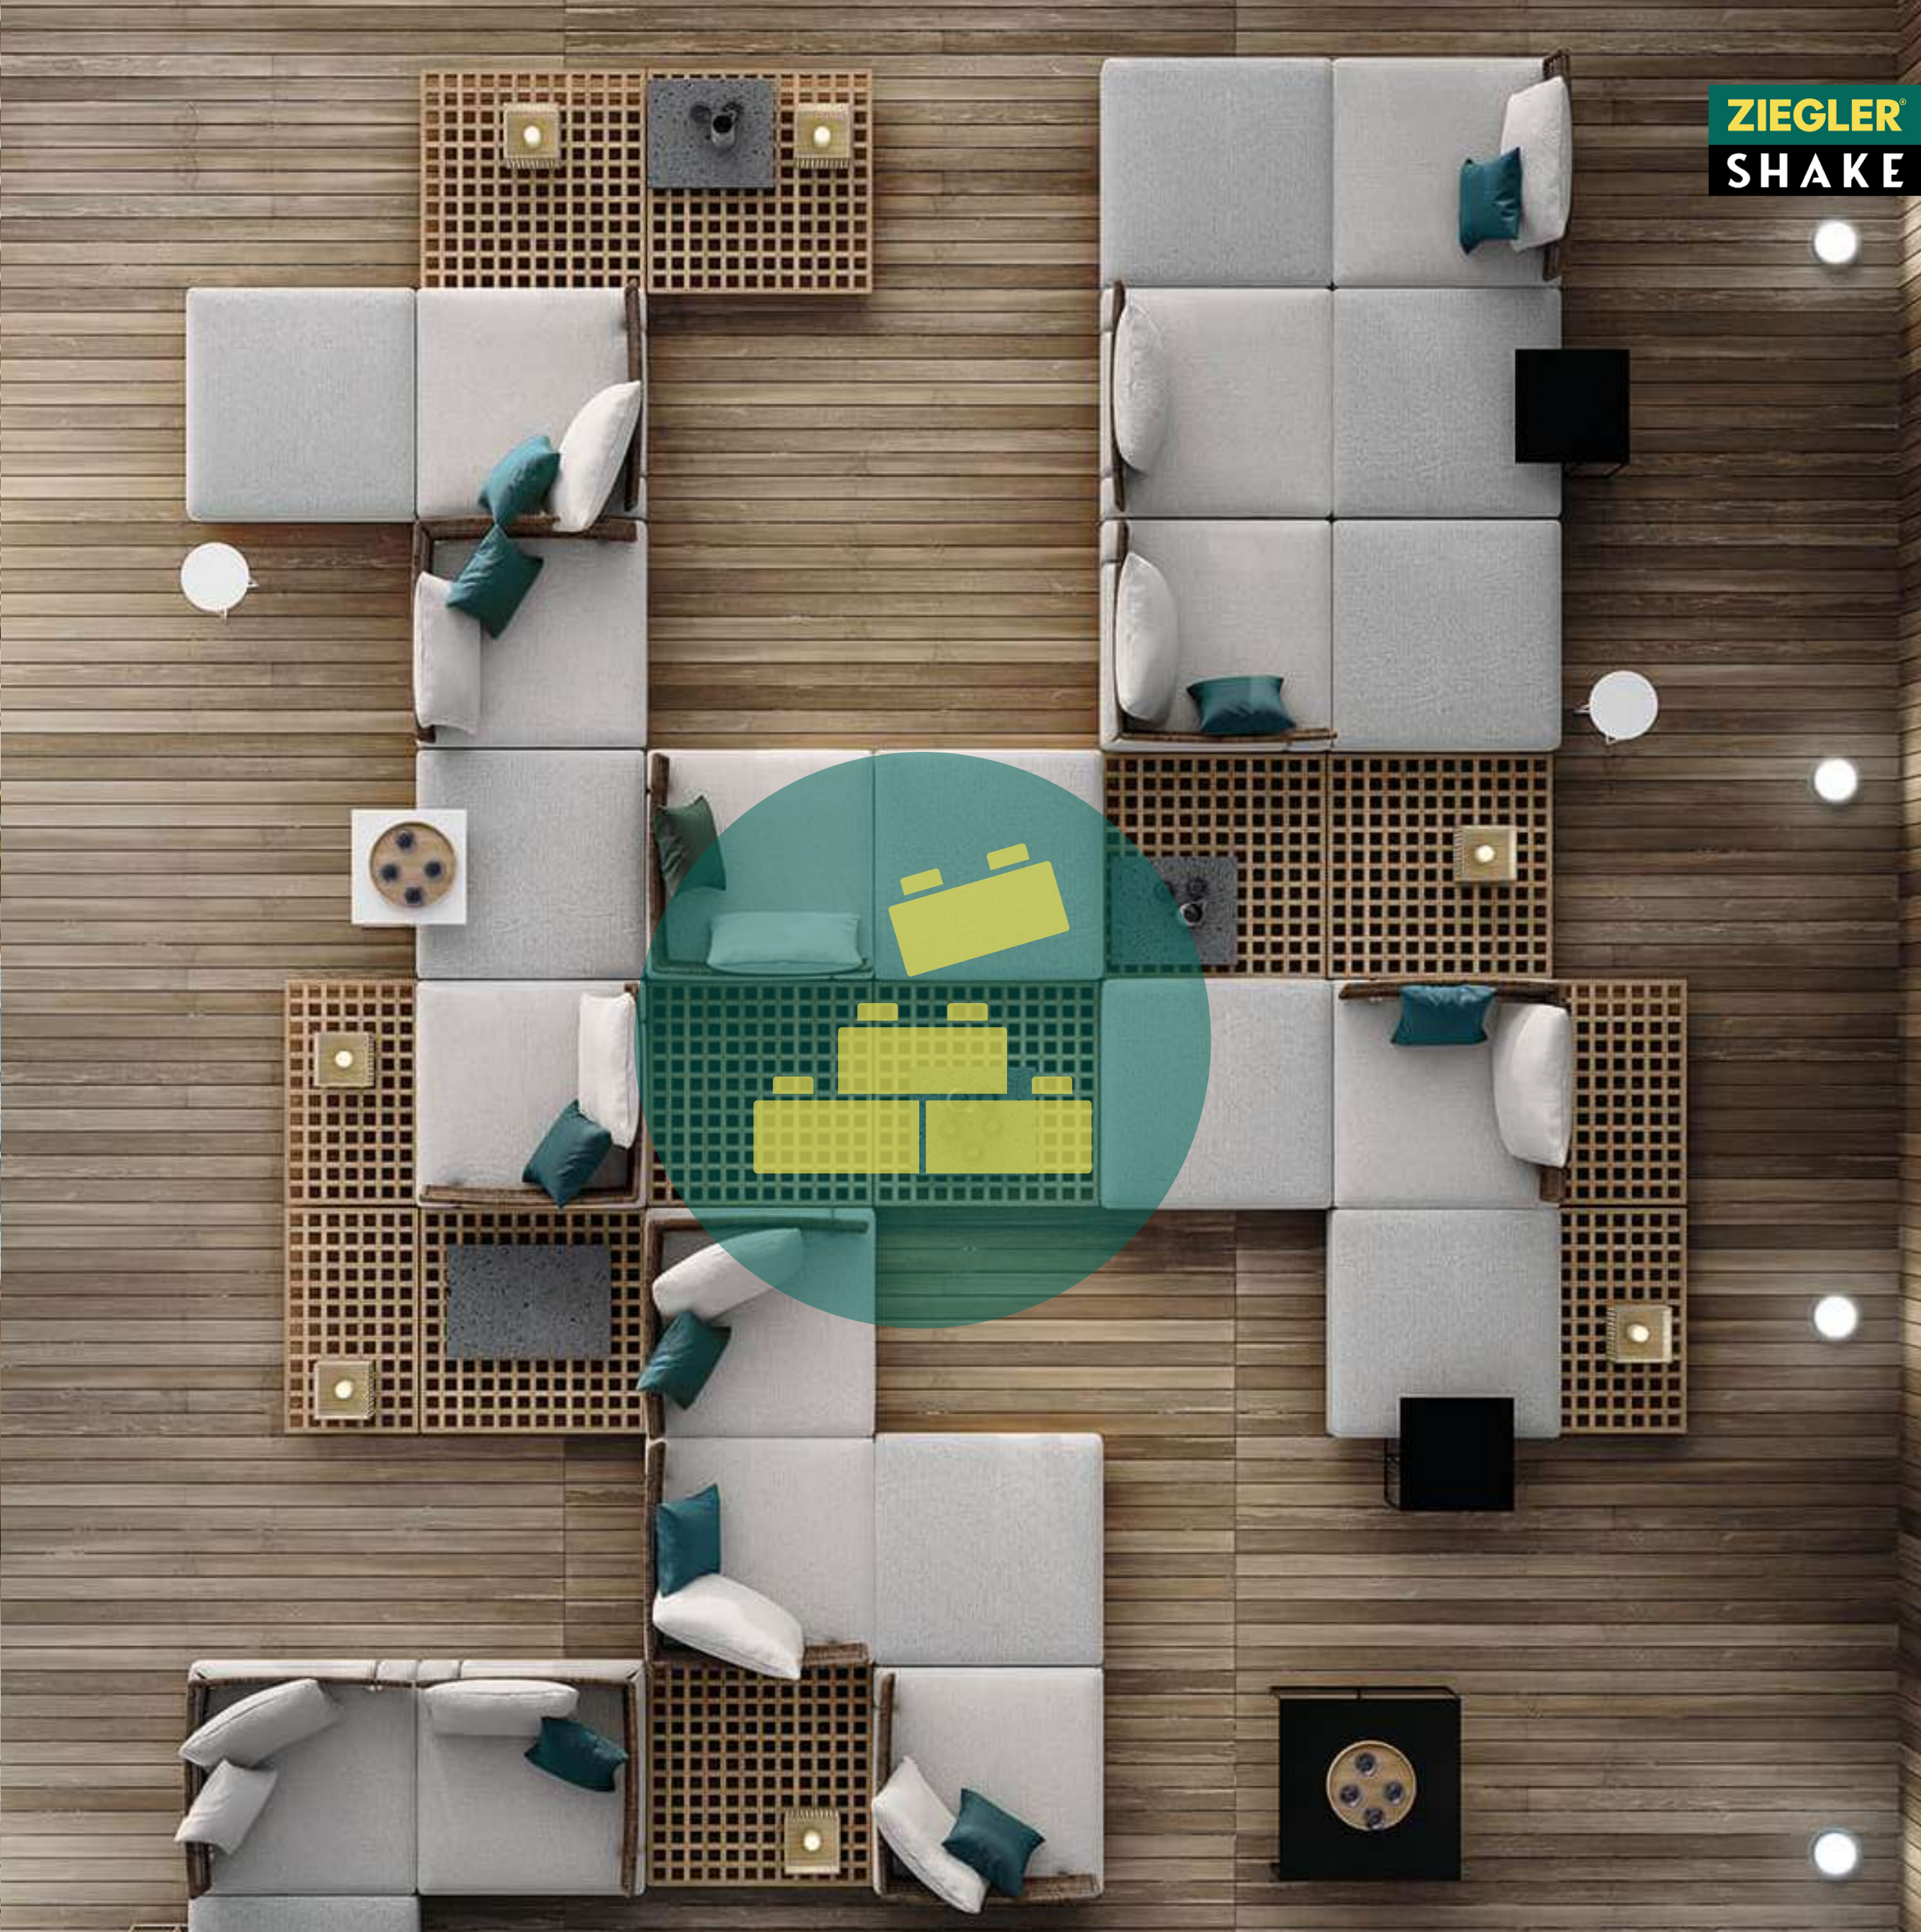

LINK TO DESIGN

&

IMPLEMENTATION

ZIEGLER
SHAKE

ZIEGLER LIGHTHOUSE

Metaphorically, a lighthouse can be any source of guidance or inspiration that helps people navigate through challenges or uncertainties. It symbolizes hope, safety, and direction, illuminating the path and warning of potential dangers.

A LIGHTHOUSE STAND FOR

- Navigation
- Recognition
- Guidance
- Safety

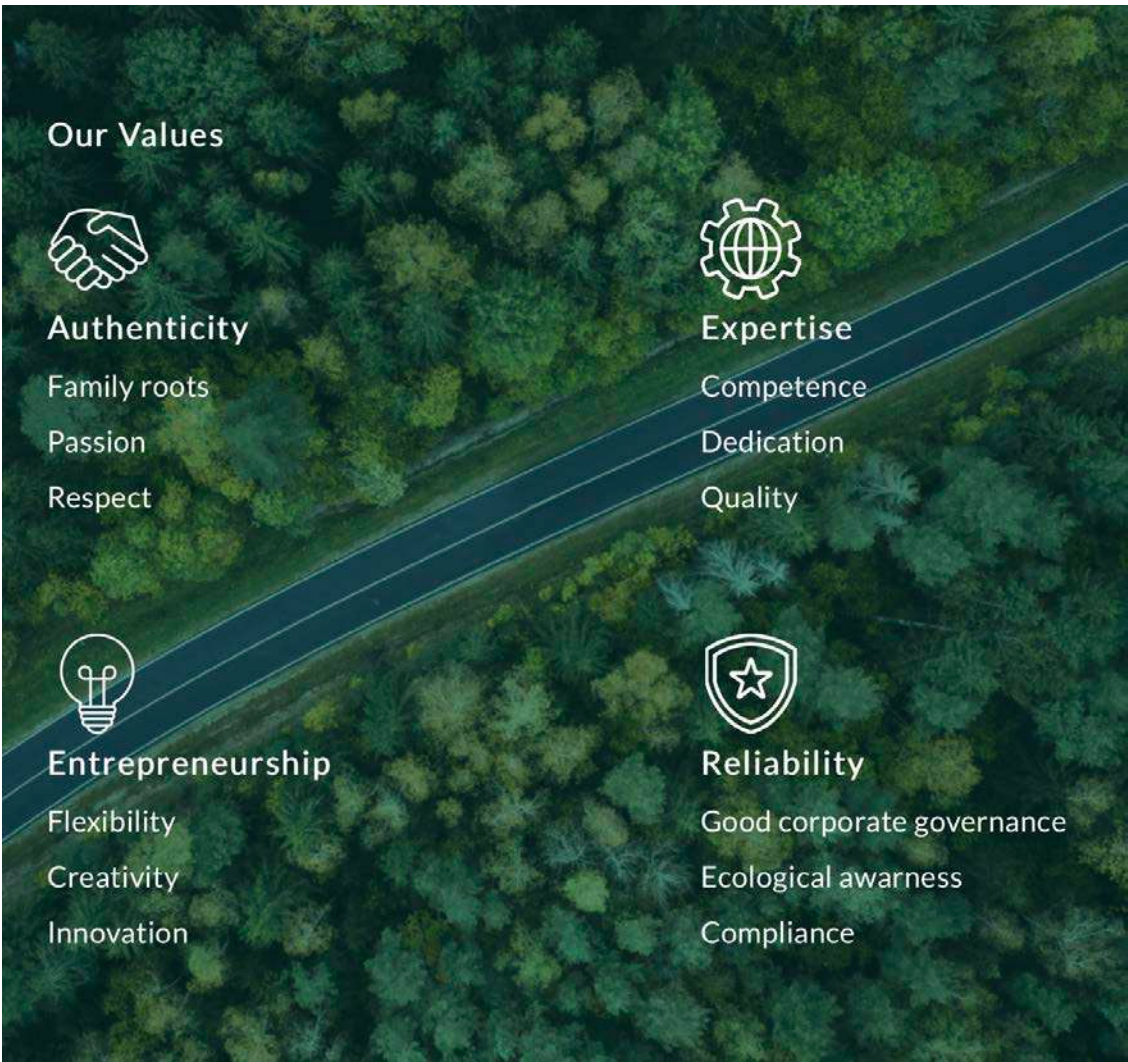

HOW TO CREATE THE ZIEGLER LIGHTHOUSE

- Values
- History
- Branding
- Branding colour palette

VALUES

The translation of the ZIEGLER values to design to gives the user a experience of **connection to the company**

HISTORY

A Connection to the history of ZIEGLER builds **Trust and Credibility** and is the perfect base for storytelling

BRANDING

The look&feel of logo and colour palette as an inspiration to have **Consistency and Coherence**

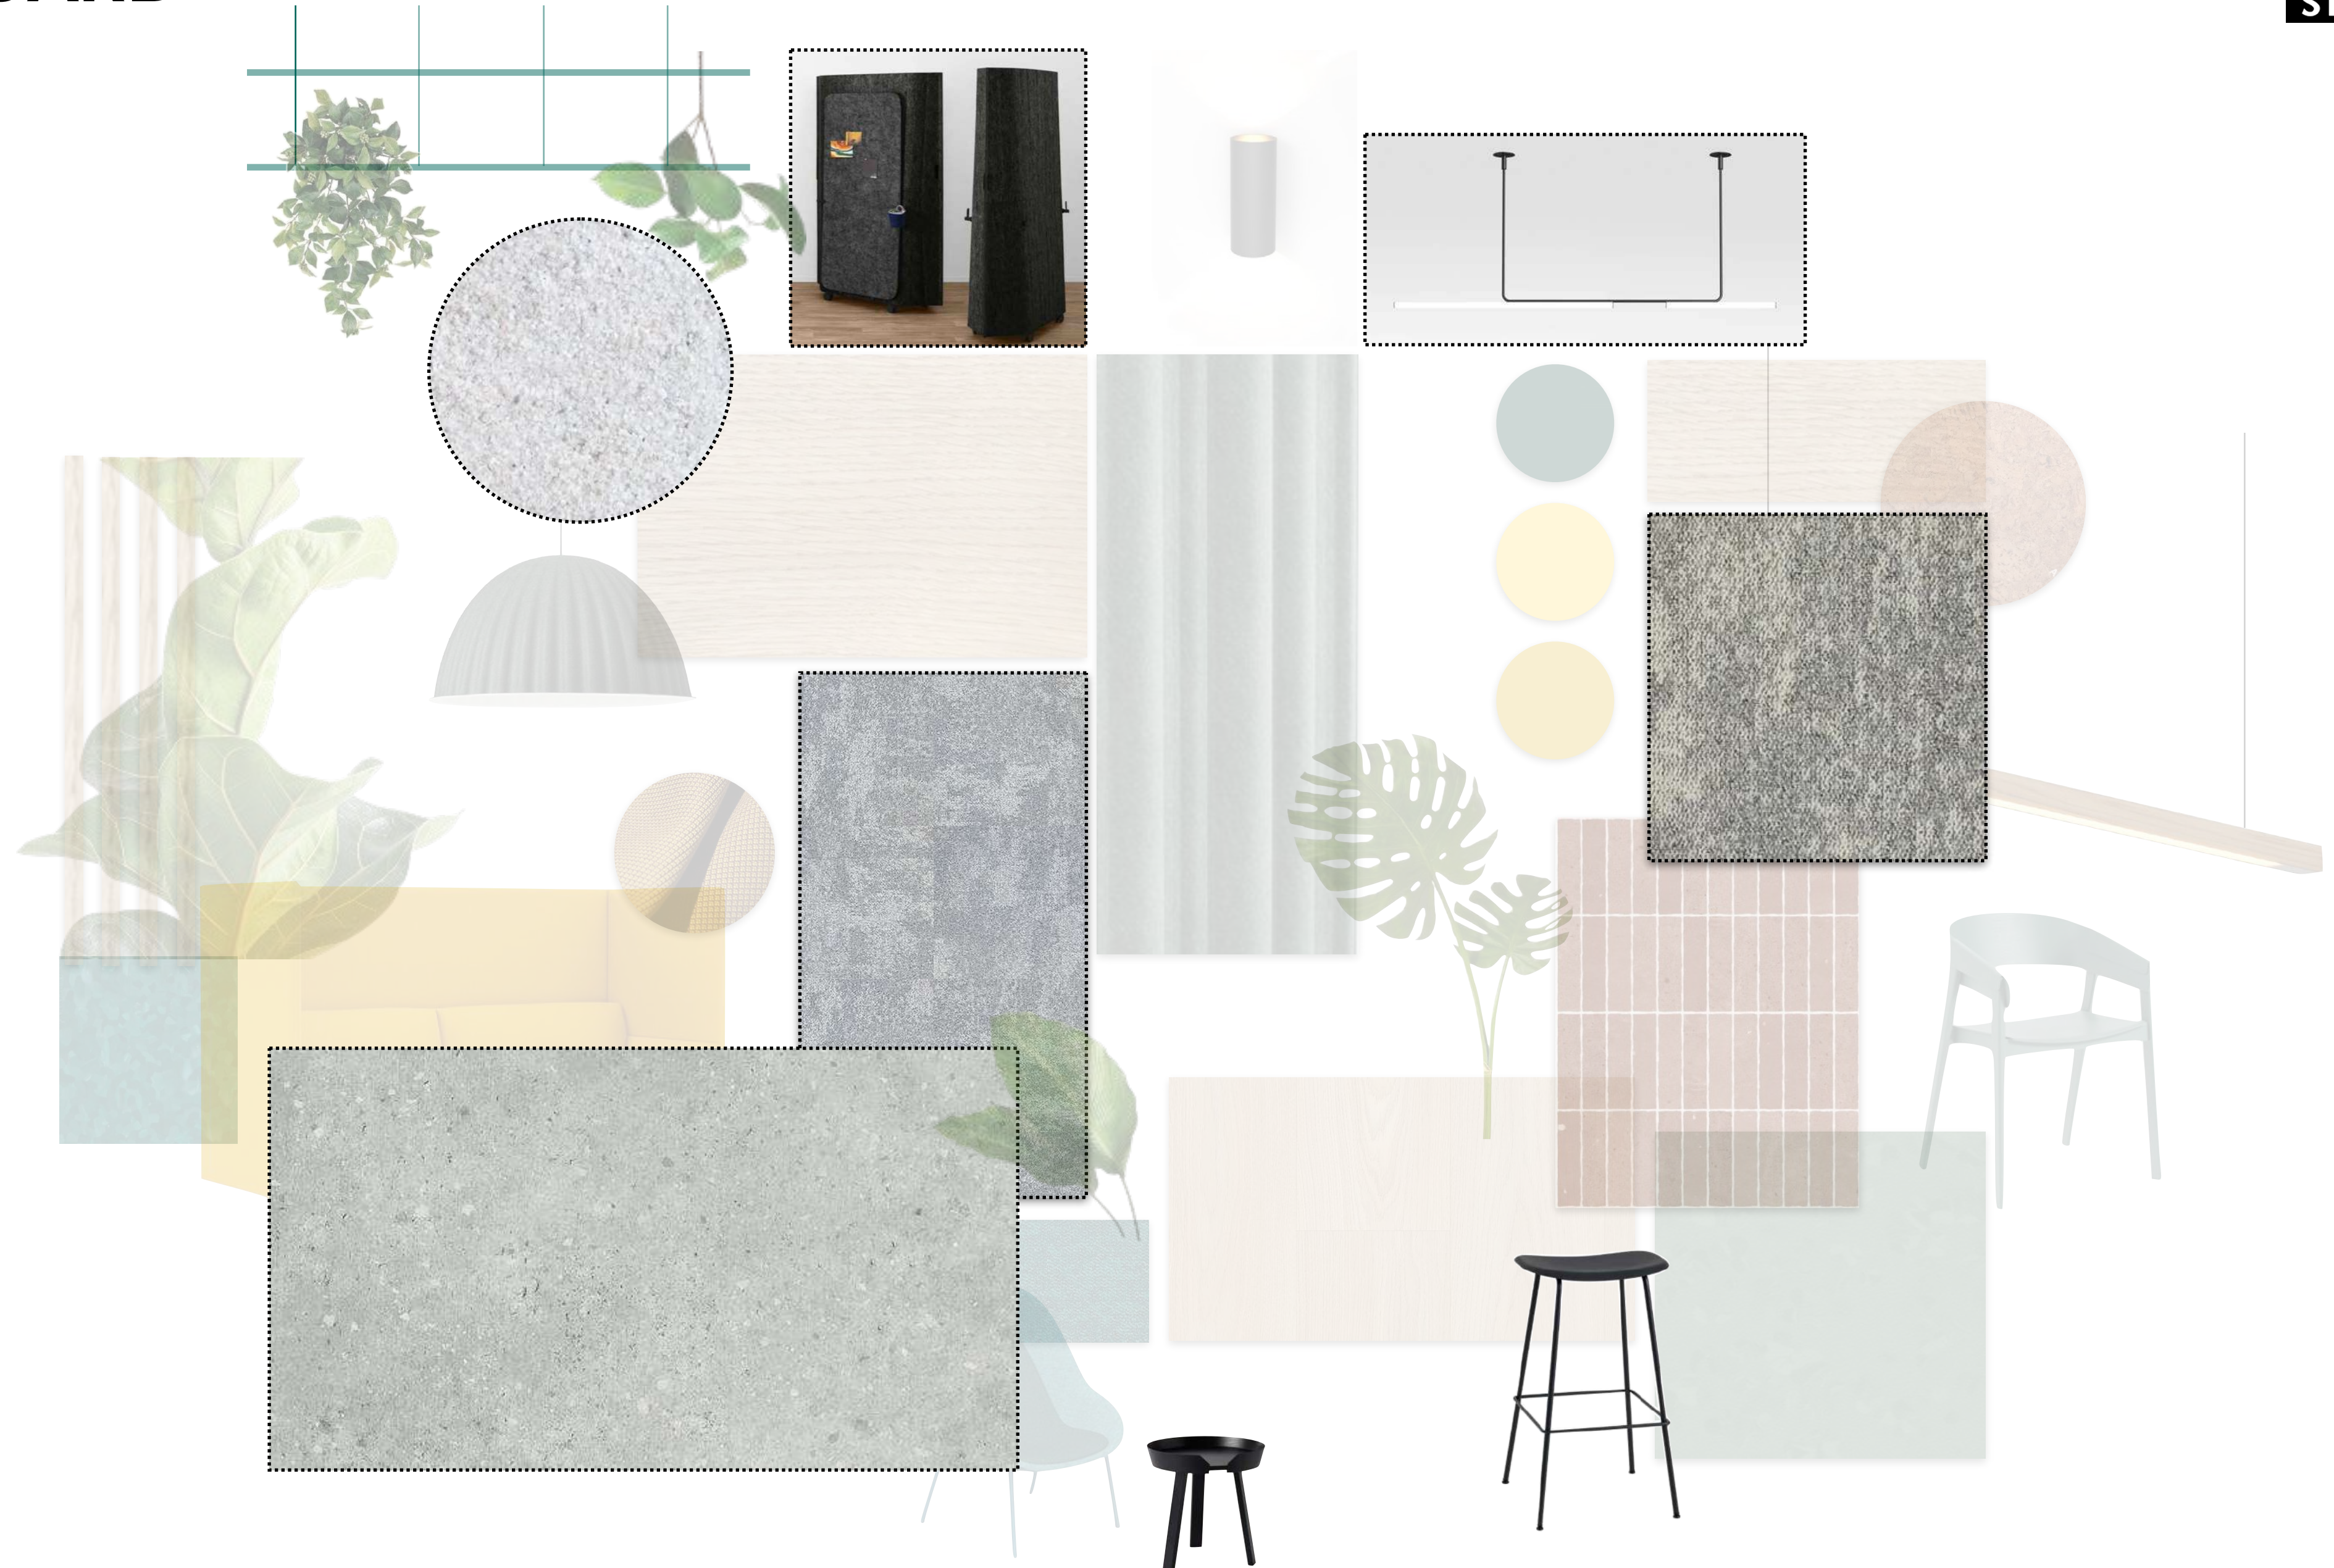

A large, solid yellow geometric shape, resembling a wide triangle or a sector of a circle, pointing towards the left. It occupies the right half of the image and partially overlaps the text.

GENERAL MOODBOARD

Look & feel

- 

COMPOSITION. Indicative percentage of recycled material that make up the product.
- 

RECYCLABLE. Recyclable percentage of the product.
- 

NATURAL. Indicative percentage of natural elements that make up the product.
- 

CO2 NEUTRAL. Product without chemical emission for one better air equality.
- 

ZERO KILOMETER. Produced in Belgium or European countries to avoid chemical emissions from transport.
- 

DURABILITY. The product guarantees durability of technical and aesthetic characteristics over time.
- 

CRADLE TO CRADLE. This concept means a product is designed so that its materials and components can be repurposed- or recycled indefinitely.

1- Fabric : Kvadrat Sport 443/ 943
Sport is an upholstery recycled textile made from 100% ocean-bound plastic waste.

 100%  100% 

2- Tiles: GWILEN transforms marine sediments into materials for design and architecture.

 100%  100%  100%  EU

3- Wood covering: Bosq WoodSaver – natural oak
This innovative production method assembles short pieces of wood that would normally be shredded into chips. WoodSaver is a 100% recycled product that maintains all the characteristics of the veneer.

 100%  100%  100%  BE

4- Acoustic pannel: De Vorm PET Felt Acoustic Panel / Olive green
PET Felt products contains post-consumer PET. It is a versatile and durable material, suitable for every environment.

 100%  100%  EU

5- Carpet: Interface - COLLECTION CONNECTED ETHOS CE100
The collection Connected Ethos uses 100% recycled nylon and is carbon neutral through Carbon Neutral Floors™ programme when combined with CQuest™BioX underlayer.

 70%  100%   EU

6- Rubber flooring: NORA Seneo by Interface / 7219
With gold rating in Cradle to cradle certification, this floring uses only PEFC-certified natural rubber

  100%  100%  EU

Incorporating plants, whether real or fake, into an office environment can offer several benefits:

Enhanced Aesthetics: Fake plants can improve the visual appeal of a workspace, adding a touch of nature and color that brightens up the environment.

Improved Mood and Well-Being: The presence of greenery, even if artificial, can create a more pleasant and calming atmosphere, which may help reduce stress and increase overall job satisfaction.

Increased Productivity: A visually appealing environment can positively impact focus and motivation. Fake plants contribute to a pleasant ambiance without requiring the upkeep of real ones.

Low Maintenance: Unlike real plants, fake plants don't require watering, sunlight, or regular care, making them a practical choice for busy office settings.

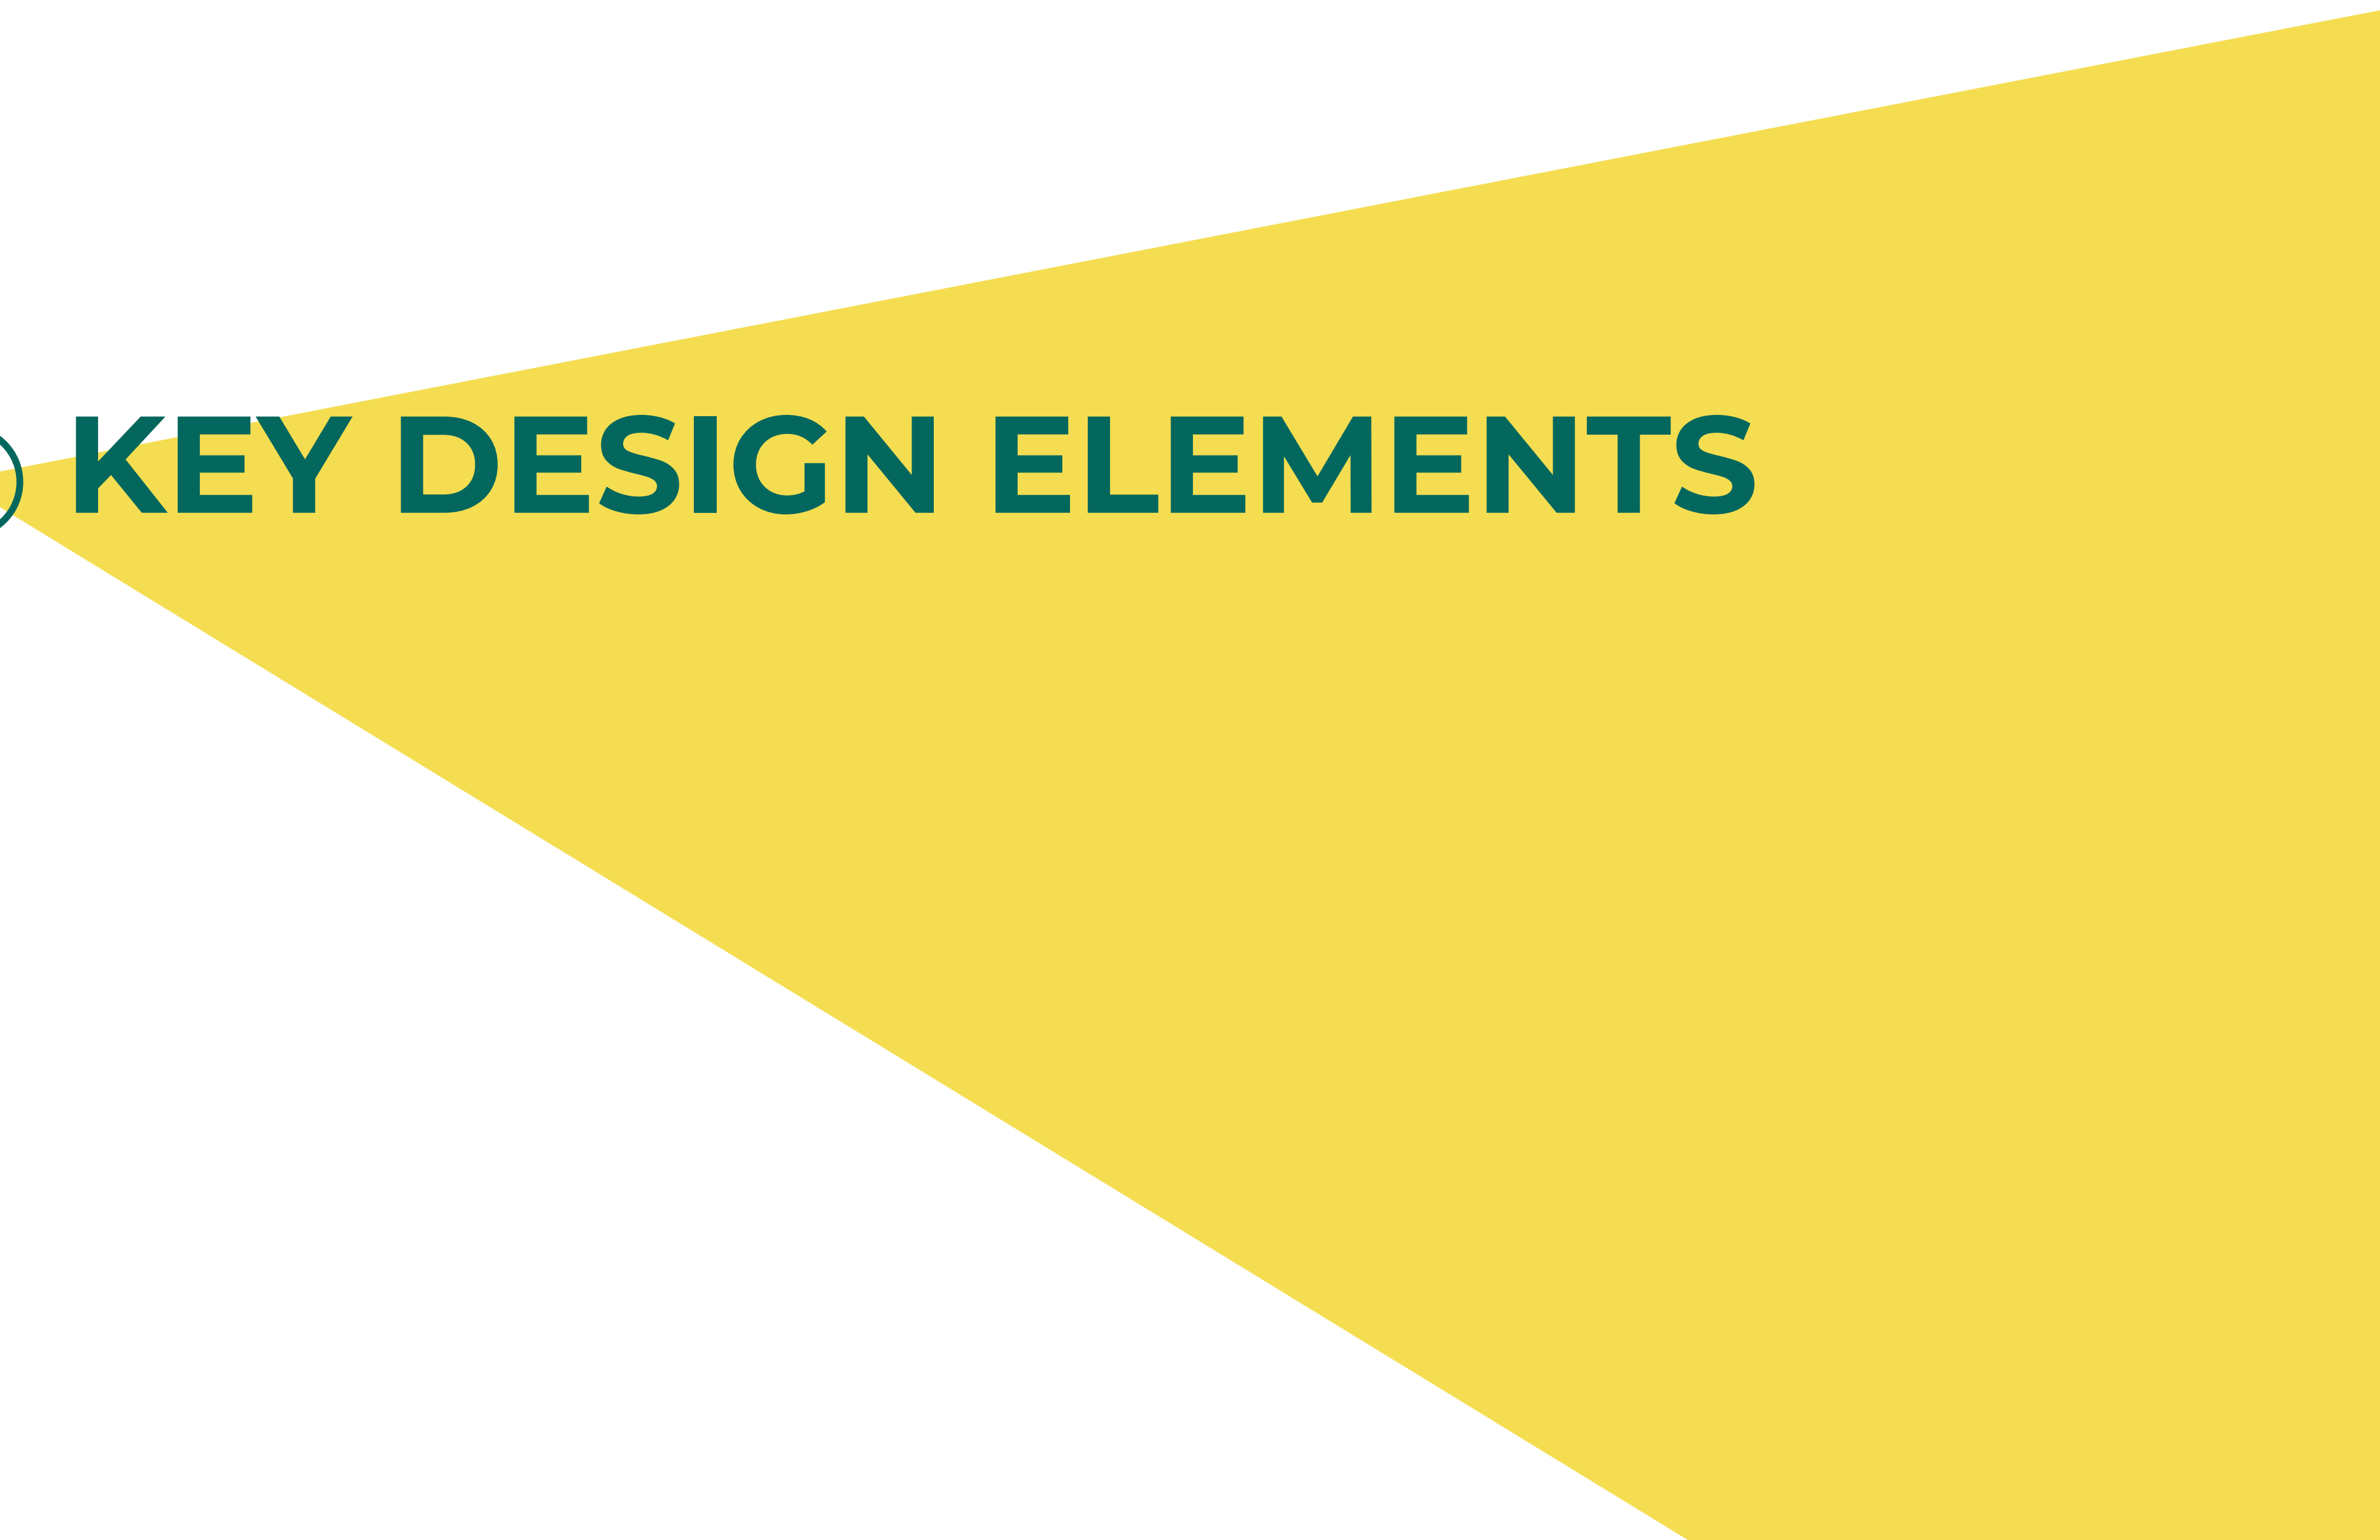

Allergy-Friendly: Fake plants eliminate concerns about allergens or the need for soil, which can be an issue with real plants in some environments.

Versatility: Fake plants come in a variety of styles and sizes, allowing for easy customization to fit different office themes and spaces.

Cost-Effective: Although initially more expensive than some real plants, fake plants can be a more cost-effective long-term solution as they do not need replacing or replacing frequently.

In summary, fake plants can enhance the look and feel of an office, contribute to a positive work environment, and offer practical benefits without the demands of real plant care.

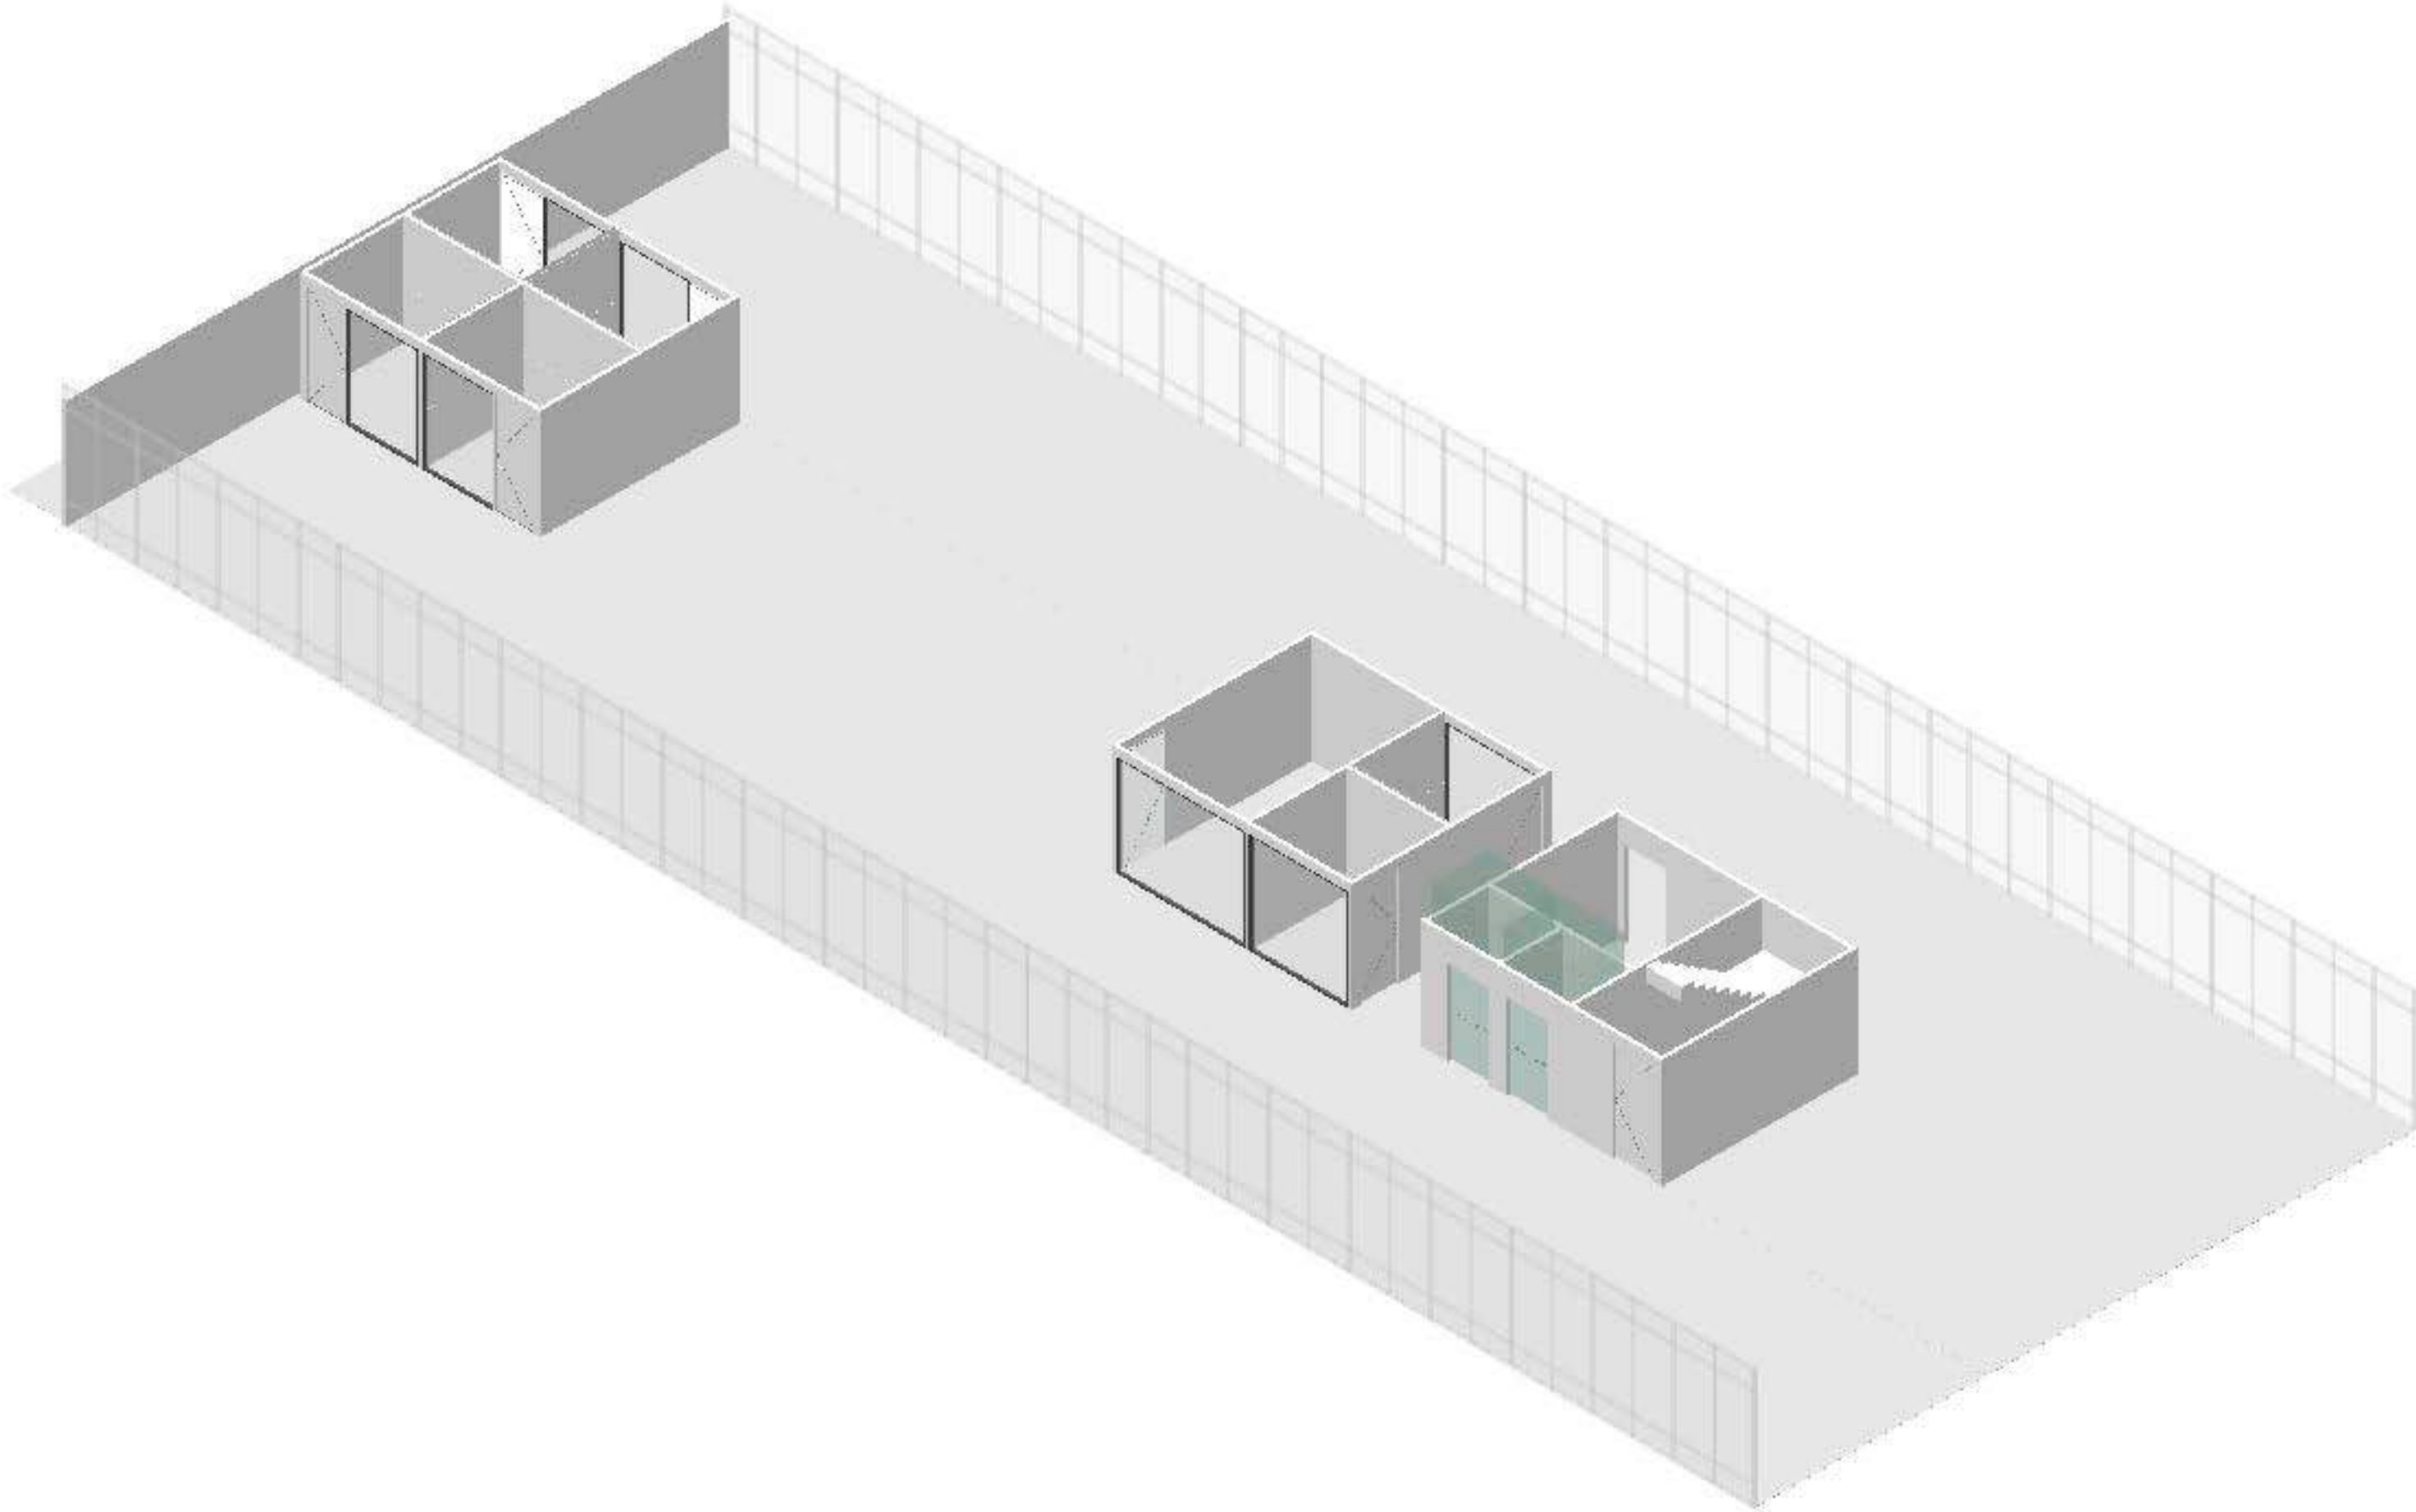

A large, solid yellow geometric shape, resembling a wide triangle or a parallelogram, points from the right edge of the frame towards the left, where it frames the text.
